Our story

The training of history teachers at the university began in the 1930s, when the Faculty of History was established on the basis of the socio-economic department of the Sumy Institute of Social Education.

In 1935 the faculty was transferred to the Kharkiv Pedagogical Institute, and in 1938 its activities as part of the Sumy State Pedagogical Institute were resumed. The Faculty of History existed intermittently during the war until 1957, when the government terminated its activities and the students were transferred to Kharkiv again.

In 1981, the Faculty of History as part of Sumy State Pedagogical University named after A.S. Makarenko was restored.

For almost 40 years of its existence, the Educational and Scientific Institute of History, Law and International Relations has trained more than five thousand highly qualified specialists in various specialties.
